# SAFETY DATA SHEET

#### 1. Identification

Product identifier SHEETROCK® Brand All Purpose Joint Compound, Ready-Mixed

Other means of identification

**SDS number** 61000010001

Synonyms Joint Compound (Ready-Mixed) , Taping Compound, Mud, Finishing Compound

Recommended use Interior use.

**Recommended restrictions**Use in accordance with manufacturer's recommendations.

Manufacturer/Importer/Supplier/Distributor information

Company name United States Gypsum Company

**Address** 550 West Adams Street

Chicago, Illinois 60661-3637

 Telephone
 1-800-874-4968

 Website
 www.usg.com

 Emergency phone number
 1-800-507-8899

# 2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Hazard symbolNone.Signal wordNone.Hazard statementNone.

**Precautionary statement** 

PreventionObserve good industrial hygiene practices.ResponseGet medical attention/advice if you feel unwell.

**Storage** Store as indicated in Section 7.

**Disposal** Dispose of in accordance with local, state, and federal regulations.

Hazard(s) not otherwise

classified (HNOC)

None known.

# 3. Composition/information on ingredients

#### **Mixtures**

Chemical name	CAS number	%
Limestone	1317-65-3	> 35
Attapulgite	12174-11-7	< 5
Mica	12001-26-2	< 5
Talc	14807-96-6	< 5

**Composition comments** All concentrations are in percent by weight unless ingredient is a gas.

Industrial hygiene studies by USG Corporation and governmental agencies did not detect airborne respirable crystalline silica during activities associated with the normal use of this product. However, job site air monitoring should be conducted to determine actual exposure when permissible exposure limits may be exceeded.

### 4. First-aid measures

**Inhalation** Dust irritates the respiratory system, and may cause coughing and difficulties in breathing. Move

injured person into fresh air and keep person calm under observation. Get medical attention if

Dust may irritate eyes and mucous membranes of the nose, throat and upper respiratory system

symptoms persist.

**Skin contact**Contact with dust: Rinse area with plenty of water. Get medical attention if irritation develops or

persists

Eye contact Dust in the eyes: Do not rub eyes. Flush thoroughly with water. If irritation occurs, get medical

assistance.

**Ingestion** Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and

delayed

Indication of immediate medical attention and special treatment needed

causing sneezing and/or coughing. May cause allergic skin disorders in sensitive individuals.

Provide general supportive measures and treat symptomatically.

Use fire-extinguishing media appropriate for surrounding materials.

General information Ensure that medical personnel are aware of the material(s) involved.

# 5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing media

tinguishing Not applicable.

Specific hazards arising from

the chemical

Not a fire hazard.

Special protective equipment and precautions for firefighters

Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

case of

Fire-fighting equipment/instructions

Use standard firefighting procedures and consider the hazards of other involved materials.

Specific methods

Cool material exposed to heat with water spray and remove it if no risk is involved.

General fire hazards

No unusual fire or explosion hazards noted.

# 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures See Section 8 of the SDS for Personal Protective Equipment.

Methods and materials for containment and cleaning up

Large Spills: Scoop spilled materials and recover as much of the product as possible for use. If spillage is unrecoverable dispose according to local, state, and federal regulations.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

**Environmental precautions** 

Avoid discharge to drains, sewers, and other water systems.

#### 7. Handling and storage

Precautions for safe handling

Avoid inhalation of dust and contact with skin and eyes. Minimize dust generation and accumulation. In case of insufficient ventilation, wear suitable respiratory equipment. Observe good industrial hygiene practices. Use proper lifting techniques.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated place. Store in a closed container away from incompatible materials. Protect from moisture. Keep away from heat. Do not use if material has spoiled, i.e., there is a moldy appearance or an unpleasant odor. Keep containers closed when not in use.

Filled 4.5 gallon pails of joint compound may be stacked a maximum of 3 layers high on a standard 48 x 48 pallet (16 pails per layer, 3 layers high). Pallets may only be stacked a maximum of two high.

Filled cartons of joint compound may be stacked a maximum of 3 layers high on a standard 42 x 42 or 42 x 48 pallet (16 pails per layer, 3 layers high). Pallets may only be stacked a maximum of two high.

# 8. Exposure controls/personal protection

# Occupational exposure limits

Components	Туре	Value	Form	
Limestone (CAS 1317-65-3)	PEL	5 mg/m3	Respirable fraction.	
		15 mg/m3	Total dust.	
US. OSHA Table Z-3 (29 CFF	R 1910.1000)			
Components	Туре	Value	Form	
Mica (CAS 12001-26-2)	TWA	20 mppcf		
Talc (CAS 14807-96-6)	TWA	0.3 mg/m3	Total dust.	
		0.1 mg/m3	Respirable.	
		20 mppcf		
		2.4 mppcf	Respirable.	
US. ACGIH Threshold Limit	Values

Talc (CAS 14807-96-6)	TWA	2 mg/m3	Respirable fraction.	
US. NIOSH: Pocket Guide to	Chemical Hazards			
Components	Туре	Value	Form	
Limestone (CAS 1317-65-3)	TWA	5 mg/m3	Respirable.	
		10 mg/m3	Total	
Mica (CAS 12001-26-2)	TWA	3 mg/m3	Respirable.	
Talc (CAS 14807-96-6)	TWA	2 mg/m3	Respirable.	
ogical limit values	No biological exposure limits noted for	or the ingredient(s).		
ropriate engineering trols	Provide sufficient ventilation for operations causing dust formation. Observe occupational exposure limits and minimize the risk of exposure.			
vidual protection measures,	such as personal protective equipm	ent		
Eye/face protection	Wear approved safety goggles.			
Skin protection				
Hand protection	It is a good industrial hygiene practice to minimize skin contact. For prolonged or repeated skir contact use suitable protective gloves.			
Other	Normal work clothing (long sleeved shirts and long pants) is recommended.			
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure			
	limits (where applicable) or to an acceptable level (in countries where exposure limits			

limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Use a NIOSH/MSHA approved air purifying respirator as needed to control exposure. Consult with respirator manufacturer to determine respirator selection, use, and limitations. Use positive pressure, air-supplied respirator for uncontrolled releases or when air purifying respirator limitations may be exceeded. Follow respirator protection program requirements (OSHA 1910.134 and ANSI Z88.2) for all respirator

use.

Thermal hazards None.

General hygiene Always observe good personal hygiene measures, such as washing after handling the material considerations and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

equipment separately from regular wash. Observe any medical surveillance requirements.

# 9. Physical and chemical properties

**Appearance** 

**Physical state** Semi-solid. **Form** Paste. Color Off-white. Odor Low to no odor. **Odor threshold** Not applicable. pН 7.5 - 9.9Melting point/freezing point Not applicable.

10. Stability and reactivity

The product is stable and non-reactive under normal conditions of use, storage and transport. Reactivity

Chemical stability Material is stable under normal conditions. Possibility of hazardous Hazardous polymerization does not occur.

reactions

None known. Conditions to avoid Incompatible materials None known.

Above 1472°F (800°C) limestone (CaCO3) can decompose to lime (CaO) and release carbon Hazardous decomposition dioxide (CO2). products

11. Toxicological information

Information on likely routes of exposure

May cause discomfort if swallowed. Ingestion

Inhalation Airborne dust may irritate throat and upper respiratory system causing coughing.

May cause allergic skin reactions especially in individuals with pre-existing skin disease such as Skin contact

eczema. (See Section 16).

Eye contact Airborne dust may cause mechanical eye irritation.

Symptoms related to the physical, chemical and toxicological characteristics Dust may irritate eyes and mucous membranes of the nose, throat and upper respiratory system

causing sneezing and/or coughing.

Information on toxicological effects

Not expected to be a hazard under normal conditions of intended use. **Acute toxicity** Skin corrosion/irritation Prolonged or repeated skin contact may cause drying, cracking, or irritation.

Serious eve damage/eve

irritation

Direct contact with eyes may cause temporary irritation.

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer. Skin sensitization The product contains a small amount of sensitizing substance which may provoke an allergic

reaction among sensitive individuals after repeated contact.

For detailed information, see section 16.

Data does not suggest that this product or any components present at greater than 0.1% are Germ cell mutagenicity

mutagenic or genotoxic.

Carcinogenicity This product is not expected to increase the risk of cancer.

IARC Monographs. Overall Evaluation of Carcinogenicity

Attapulgite (CAS 12174-11-7) 2B Possibly carcinogenic to humans.

3 Not classifiable as to carcinogenicity to humans. Talc (CAS 14807-96-6) 3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

Not expected to be a reproductive hazard. Reproductive toxicity

Specific target organ toxicity -

single exposure

No data available, but none expected.

Specific target organ toxicity -

repeated exposure

Not classified.

**Aspiration hazard** Not an aspiration hazard.

Prolonged exposure may cause chronic effects. For detailed information, see section 16. **Chronic effects** 

12. Ecological information

**Ecotoxicity** The product is not classified as environmentally hazardous. However, this does not exclude the

possibility that large or frequent spills can have a harmful or damaging effect on the environment.

No data available. Persistence and degradability

Bioaccumulative potential Bioaccumulation is not expected.

Mobility in soil No data available. Other adverse effects None expected.

13. Disposal considerations

**Disposal instructions** Dispose in accordance with applicable federal, state, and local regulations. Recycle responsibly.

Dispose of in accordance with local regulations. Local disposal regulations

Hazardous waste code Not regulated.

Waste from residues / unused

products

Dispose of in accordance with local regulations.

Contaminated packaging Dispose of in accordance with local regulations.

14. Transport information

DOT

Not regulated as dangerous goods.

IATA

Not regulated as dangerous goods.

**IMDG** 

Not regulated as dangerous goods.

Transport in bulk according to Not applicable.

Annex II of MARPOL 73/78 and

the IBC Code

15. Regulatory information

#### **Further information**

Vinyl acetic monomer, formaldehyde and acetaldehyde: Trace amounts of vinyl acetate monomer and formaldehyde may be found in this product.

Attapulgite: Carcinogenic to experimental animals via a route of exposure not relevant to human exposure.

Skin Sensitization Potential: This product contains an amount of Triazinetriethanol (THT) (CAS No. 4719-04-4) that is below the approved EPA regulated limits. THT can act as a sensitizer. Numerous human studies with concentrations up to 1% yielded negative (no sensitization) results. However, some results showed positive reactions in concentrations <0.5% mostly in persons with eczema.

Crystalline silica: Raw materials in this product may contain respirable crystalline silica. Exposures to respirable crystalline silica are not expected during the normal use of this product. However, actual levels must be determined by workplace hygiene testing. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease (i.e., silicosis) and/or lung cancer.
