If eye irritation persists, get medical attention.**Inhalation:** Remove exposed person to fresh air if adverse effects are observed.**Skin contact:** Take off contaminated clothing and wash before reuse. Wash with soap and water. If skin irritation occurs, get medical attention.**Ingestion:** IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Call a POISON CENTER/doctor if you feel unwell.**Most important symptoms/effects:** See section 11.**Indication of immediate medical attention and special treatment needed, if necessary:****Notes to physician:** Treat symptomatically.**Specific treatments:** No specific treatment.**SECTION 5 FIRE-FIGHTING MEASURES****Suitable (and unsuitable) extinguishing media:**

This product is not flammable. Extinguish fire using agent suitable for surrounding fire.

Specific hazards arising from the chemical:

A solid stream of water may spread the burning material.

Special protective equipment for fire-fighters: Use appropriate equipment for surrounding fire.**SECTION 6 ACCIDENTAL RELEASE MEASURES****Personal precaution, protective equipment and emergency procedures:** Put on appropriate personal protective equipment (see section 8).**Methods and materials for containment and cleaning-up:** Soak up with inert, absorbent material. Sweep up and shovel into suitable containers for proper disposal.**SECTION 7 HANDLING AND STORAGE****Precautions for safe handling:** Observe good industrial hygiene practices. Wear appropriate personal protective equipment. Wash thoroughly after handling.**Conditions for safe storage, including any incompatibilities:** Store away from incompatible materials. See section 10 for incompatible materials.

SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Chemical name	CAS	OSHA PEL	ACGIH TLV	Supplier
Diisopropylphenyl Isocyanate	28178-42-9	Not established	Not established	0.005 ppm TWA

Appropriate engineering controls: No special requirements under ordinary conditions of use. In areas of high concentration, extreme temperatures, and poor ventilation or confined spaces, a self-contained breathing apparatus should be used.

Individual protection measures (PPE):

Eye protection: If contact is likely, safety glasses with side shields are recommended.

Hand protection: Suitable gloves as recommended by glove supplier.

Skin and body protection: If major exposure is possible, wear suitable protective clothing and footwear.

Respiratory Protection: A respiratory protection program compliant with all applicable regulations must be followed whenever workplace conditions require the use of a respirator. Under normal use conditions, respirator is not usually required. Use appropriate respiratory protection if exposure to dust particles, mist or vapors is likely. Use self-contained breathing apparatus for entry into confined space, for other poorly ventilated areas and for large spill clean-up sites.
