## MSDS PRODUCT INFORMATION

Date: 05/04/2009  
To: MSDS Requester  
From: 3E Company  
Subject: The MSDS you have requested

MSDS NOT REQUIRED

In response to your request for a Material Safety Data Sheet, according to the OSHA Hazard Communication Standard (Right-to-Know), the following item is an article. Articles are defined in 29 CFR 1910.1200(c). Products such as Drugs, cosmetics, food, or alcoholic beverages, wood or wood products, and tobacco or tobacco products, as defined in 29 CFR 1910.1200(b)(6), are exempt from the Hazard Communication Standard. Items that are considered articles, as defined in 29 CFR 1910.1200(c), are also exempt from this Standard. Therefore, the manufacturer is not required to provide an MSDS for this product.

MSDS DISCONTINUED PRODUCT

In response to your request for a Material Safety Data Sheet, the manufacturer has discontinued the product listed below. The MSDS Attached is the most current version, or an MSDS is no longer available.

MSDS BEST COPY AVAILABLE

The MSDS attached is the best copy available from the manufacturer.

MANUFACTURER NO LONGER IN BUSINESS

In response to your request for a Material Safety Data Sheet, a current MSDS could not be obtained for this product. It has been determined that the manufacturer listed below is no longer in business. A current address and phone number could not be located.

Manufacturer: Dexol Division of Ringer Corporation  
Product Name: Dexol Gopher Gasser

**MATERIAL SAFETY DATA SHEET**  
(Complies with OSHA CFR 1910.1200, ANSI Z 400.1-1993)

**SECTION 1: Chemical Product & Company Identification**

**Product Name(s):** Dexol® Gopher Gasser

**EPA Number:** 192-49

**Manufacturer Name & Address:** Dexol, a division of Verdant Brands Inc. 9555 James Avenue S., Ste 200, Bloomington, MN 55431

**Telephone Contact Number & Hours of Operation:** (612) 703-3300, 8:00 a.m. - 5:00 Central Time

**Emergency Telephone Contact Number:** Chemtrec 800-424-9300

**SECTION 2: Composition/Information on Ingredients**

<u>Hazardous Ingredients</u>	% by weight	CAS No.	OSHA	PEL	ACGIH	TLV
			TWA	STEL	TWA	STEL
sulfur	45.0	7704-34-9	NE	NE	NE	NE
potassium nitrate	45.0	7757-79-1	NE	NE	NE	NE
carbon	8.0		3.5 mg/m <sup>3</sup> **	NE	3.5mg/m <sup>3</sup>	NE
Dextrin	2.0		NE	NE	NE	NE

\* all ingredients in quantities > 1.0 % (0.1 % for carcinogens or teratogens) that are potentially hazardous per OSHA definitions

\*\* as carbon black

N/A = not applicable NE = not established

**SECTION 3: Hazards Identification**

**Physical description:** grey powder

**Odor:** no distinctive odor

**Physical Hazards:** solid is ignitable; excessive dust may form explosive mixtures with air

**Potential Health Effects:** Material may be severely irritating to skin, eyes and respiratory tract. Personnel responding to a spill of this material should wear appropriate personal protective equipment.

**EMERGENCY OVERVIEW**

**SECTION 4: First Aid Measures**

**Skin Contact:** Wash with plenty of soap and water. Get medical attention if irritation persists.

**Ingestion:** If swallowed, promptly drink large amounts of water. Never give liquids to an unconscious person. Get medical attention. DO NOT INDUCE VOMITING

**Eye Contact:** Flush eyes with water for at least 15 minutes. Seek medical attention.

**Inhalation:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

**SECTION 5: Fire Fighting Measures**

**Extinguishing media:** dry chemical, foam, water fog (NOT water stream)

**Flashpoint:** not determined

**Hazardous products of combustion:** hydrogen sulfide, carbon disulfide, SO<sub>2</sub>

**Autoignition temperature:** not applicable

**Unusual fire and explosion hazards:** vapors of molten sulfur may permit ignition of air/vapor mixt on contact with hot surface; such

ignition may result in transmission of flames to molten sulfur. Sulfur is poor conductor of electricity and tends to develop static charges during transport, which may lead to ignition of sulfur dust. Fires in heaps of sulfur are insidious since they may break out again even after extinguished.

**NFPA Ratings:** Health = 2 Fire = 1 Reactivity = 0

#### **SECTION 6: Accidental Release Measures**

**Spills:** Sweep or shovel spilled material using a natural fiber broom and/or aluminum shovel to reduce sparking. Be careful not to create dust as an explosion could result. (See Disposal Comments in Section 13)

#### **SECTION 7: Handling & Storage**

**Storage:** Store away from heat, sparks, flames, in well-ventilated space, out of reach of children. Do not contaminate water, food or feed by storage or disposal. Do not reuse container.

**Storage Temperature:** Avoid excessive temperatures and direct sunlight. Store below 110°F.

#### **SECTION 8: Exposure Controls & Personal Protective Equipment**

**Skin:** Protective gloves recommended

**Eye Protection:** Recommended to avoid splashing of material directly into eyes

**Respiratory:** In typical applications no engineering controls should be needed; if industrial hygiene surveys show that occupational exposure limits may be exceeded, use NIOSH approved respirator with dust/mist cartridges

#### **SECTION 9: Physical & Chemical Parameters**

**Appearance:** grey

**Odor:** no distinctive odor

**Physical state:** powder

**Solubility in water:** miscible

**Bulk Density:** n/a

**pH:** 9.22

**Vapor pressure:** n/a

**Vapor density:** n/a

**Boiling point:** n/a

**Specific Gravity:** n/a

#### **SECTION 10: Stability & Reactivity**

**Stability:** stable

**Conditions to avoid:** excessive heat

**Incompatibilities:** easily oxidizable materials, ammonium nitrate, ammonium perchlorate, finely divided metals (see NFPA guide for complete list of incompatible chemicals)

**Hazardous polymerization:** will not occur

#### **SECTION 11: Toxicological Information**

**Note to Consumers:** Information provided in this section is oriented to medical and public health professionals involved in the assessment and treatment of excessive and/or accidental exposures.

May be a contact sensitizer

**Carcinogens:** None listed per OSHA, NTP, or IARC

Excessive inhalation may inflame nasal mucosa, which may lead to hyperplasia, tracheobronchitis, dyspnea, persistent cough. Direct exposure to eyes may cause lacrimation, photophobia, conjunctivitis and blepharconjunctivitis; cases of damage to crystalline lens

have also been described, with formation of opacities, cataract and focal chorioretinitis. Prolonged skin contact may result in erythematous and eczematous lesions and signs of ulceration.

**SECTION 12: Ecological Information**

**Ecotoxicity:** May be hazardous to aquatic invertebrates. Do not apply directly to water; do not contaminate water by cleaning of equipment or disposal of washwaters.

**Environmental Fate:** no data

**SECTION 13: Disposal Considerations**

This material (as packaged) is not considered a hazardous waste. Be aware that the waste owner has responsibility for final disposal. Regulations may also apply to empty containers, liners or rinsate. Laws may change or be reinterpreted; state and local regulations may be different from federal regulations. This information applies to materials as manufactured; contamination or processing may change waste characteristics and requirements.

**SECTION 14: Transport Information**

**DOT Hazard Description:** Consumer Commodity, ORM-D

**SECTION 15: Regulatory Information**

**SARA Title III:** n/a

**Individual States:** States such as Pennsylvania, New Jersey, California, Vermont, Massachusetts and Rhode Island may all have components of this product listed; consult specific state regulatory requirements for additional information.

**SECTION 16: Other Information**

For additional information, refer to the DOT Emergency Response Guidebook.

**This information is provided in good faith, but without express or implied warranty.**
