Material Safety Data Sheet

STAINBLASTER POWER PAK 1 NP

Section 1. Chemical product and company identification

Trade name : STAINBLASTER POWER PAK 1 NP

Product use : Laundry product

Supplier : Ecolab Inc. Institutional Division

370 N. Wabasha Street St. Paul, MN 55102 1-800-352-5326

Code : 912074

Date of issue 08-January-2009

EMERGENCY HEALTH INFORMATION: 1-800-328-0026
Outside United States and Canada CALL 1-651-222-5352 (in USA)

Section 2. Composition, information on ingredients

NameCAS number% by weightsodium hydroxide1310-73-225sodium carbonate497-19-820 - 50troclosene sodium, dihydrate51580-86-05 - 20

Section 3. Hazards identification

Physical state : Solid. [Powder.]
Emergency : DANGER!

overview CAUSES RESPIRATORY TRACT, DIGESTIVE TRACT, EYE AND SKIN BURNS.

MAY BE HARMFUL IF SWALLOWED.

Do not ingest. Do not get in eyes, on skin or on clothing. Do not breathe dust. Use only with

adequate ventilation. Keep container closed. Wash thoroughly after handling.

Potential acute health effects

Eyes : Corrosive to eyes.
Skin : Corrosive to the skin.

Inhalation: Corrosive to the respiratory system.

Ingestion: May be harmful if swallowed. Causes burns to mouth, throat and stomach.

See toxicological information (section 11)

Section 4. First aid measures

Eye contact: In case of contact, immediately flush eyes with cool running water. Remove contact lenses and

continue flushing with plenty of water for at least 15 minutes. Get medical attention

immediately.

Skin contact: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while

removing contaminated clothing and shoes. Get medical attention immediately. Wash clothing

before reuse. Clean shoes thoroughly before reuse.

Inhalation: If inhaled, remove to fresh air. If exposed person is not breathing, give artificial respiration or

oxygen applied by trained personnel. Get medical attention immediately.

Ingestion: If material has been swallowed and the exposed person is conscious, give small quantities of

water to drink. Do not induce vomiting. Never give anything by mouth to an unconscious

person. Get medical attention immediately.

Section 5. Fire fighting measures

Flash point

: > 100°C

Product does not support combustion.

Hazardous thermal decomposition products : Decomposition products may include the following materials:

carbon dioxide carbon monoxide nitrogen oxides sulfur oxides

halogenated compounds metal oxide/oxides

Fire-fighting media and instructions

: Use an extinguishing agent suitable for the surrounding fire.

Dike area of fire to prevent runoff. No specific fire or explosion hazard.

for fire-fighters

Special protective equipment: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure

Section 6. Accidental release measures

Personal precautions : Immediately contact emergency personnel. Stop leak if without risk. Use suitable protective equipment. Keep unnecessary personnel away. Do not touch or walk through spilled material.

Environmental precautions

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods for cleaning up

: If emergency personnel are unavailable, vacuum or carefully scoop up spilled material and place in an appropriate container for disposal. Avoid creating dusty conditions and prevent wind dispersal.

Section 7. Handling and storage

Handling

Do not ingest. Do not get in eyes, on skin, or on clothing. Do not breathe dust. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

Storage

: Keep out of reach of children. Keep container in a cool, well-ventilated area. Keep container tightly closed.

Do not store above the following temperature: 50°C

Section 8. Exposure controls/personal protection

Engineering measures

: Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.

Personal protection:

Eyes

: Use chemical splash goggles. For continued or severe exposure wear a face shield over the gogales.

Hands

: Use chemical-resistant, impervious gloves.

Skin

: Use synthetic apron, other protective equipment as necessary to prevent skin contact.

Respiratory

: Wear appropriate respirator when ventilation is inadequate and occupational exposure limits are exceeded.

<u>Name</u>

Exposure limits

STAINBLASTER POWER PAK 1 NP

sodium hydroxide OSHA PEL (United States, 8/1997).

> TWA: 2 mg/m³ 8 hour(s). Form: All forms ACGIH TLV (United States, 1/2004).

CEIL: 2 mg/m³

chlorine ACGIH TLV (United States, 1/2004).

> STEL: 2.9 mg/m³ 15 minute(s). Form: All forms STEL: 1 ppm 15 minute(s). Form: All forms TWA: 1.5 mg/m³ 8 hour(s). Form: All forms TWA: 0.5 ppm 8 hour(s). Form: All forms

OSHA PEL (United States, 8/1997). CEIL: 3 mg/m3 Form: All forms CEIL: 1 ppm Form: All forms

Section 9. Physical and chemical properties

Physical state : Solid. [Powder.]

White. Color Odor : chlorine

Hq : 12 to 13.4 [Conc. (% w/w): 1%]

Solubility : Soluble in the following materials: cold water and hot water.

Section 10. Stability and reactivity

Stability : The product is stable. Under normal conditions of storage and use, hazardous

polymerization will not occur.

: Highly reactive or incompatible with the following materials: acids. Reactivity

> Reactive or incompatible with the following materials: metals and moisture. Slightly reactive or incompatible with the following materials: organic materials. Do not allow water to enter container. Wet material may generate halogenated gas that may pressurize sealed containers. Mixing this product with acid or ammonia

Page: 3/4

releases chlorine gas.

products

Hazardous decomposition: Under normal conditions of storage and use, hazardous decomposition products

should not be produced.

Hazardous polymerization: Under normal conditions of storage and use, hazardous polymerization will not occur.

Section 11. Toxicological information

Potential acute health effects

Eyes : Corrosive to eyes. Skin : Corrosive to the skin.

: Corrosive to the respiratory system. Inhalation

: May be harmful if swallowed. Causes burns to mouth, throat and stomach. Ingestion

Potential chronic health effects

Target organs : Contains material which may cause damage to the following organs: lungs, upper

respiratory tract.

Section 12. Ecological information

Section 13. Disposal considerations

Waste disposal

: The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Consult your local or regional authorities.

Section 14. Transport information

Certain shipping modes or package sizes may have exceptions from the transport regulations. The classification provided may not reflect those exceptions and may not apply to all shipping modes or package sizes.

UN Classification

UN number UN1823

Proper shipping name SODIUM HYDROXIDE, SOLID mixture

Class 8
Packing group ||

See shipping documents for specific transportation information.

Section 15. Regulatory information

HCS Classification : Corrosive material

Target organ effects

U.S. Federal regulations : SARA 302/304/311/312 extremely hazardous substances: No products were

found.

SARA 302/304 emergency planning and notification: No products were

found.

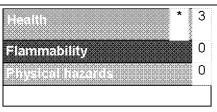

TSCA 8(b) inventory : All components are listed or exempted.

California Prop. 65 : No products were found.

Section 16. Other information

Hazardous Material

Information System (U.S.A.)

Date of issue : 08-January-2009.
Responsible name : Regulatory Affairs
Date of previous issue : 08-January-2009.

Notice to reader

The above information is believed to be correct with respect to the formula used to manufacture the product in the country of origin. As data, standards, and regulations change, and conditions of use and handling are beyond our control, NO WARRANTY, EXPRESS OR IMPLIED, IS MADE AS TO THE COMPLETENESS OR CONTINUING ACCURACY OF THIS INFORMATION.
