4. FIRST-AID MEASURES

Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact: Remove contaminated clothes and rinse skin thoroughly with water for at least 15 minutes. In case of rashes, wounds or other skin disorders: Seek medical attention and bring along these instructions.
Eye contact: Immediately flush eyes with plenty of water for at least 15 minutes. Remove any contact lenses.
and open eyes wide apart. Get medical attention if irritation develops or persists.

**Ingestion**

**Most important symptoms and effects**

Symptoms include itching, burning, redness, and tearing of eyes.

**General advice**

Get medical attention if any discomfort develops.

**Notes to physician**

Treat symptomatically.

---

**5. FIRE-FIGHTING MEASURES**

**Suitable extinguishing media**

Dry chemical, foam, carbon dioxide.

**Extinguishing media which must not be used for safety reasons**

Do not use water jet as an extinguisher, as this will spread the fire.

**Unusual fire & explosion hazards**

None known

**Specific hazards**

Thermal decomposition may produce smoke, oxides of carbon and lower molecular weight organic compounds whose composition have not been characterised.

**Special protective equipment for fire-fighters**

Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace.

**Fire fighting equipment/instructions**

Move containers from fire area if you can do it without risk. Use water spray to cool unopened containers. Cool containers with flooding quantities of water until well after fire is out.

---

**6. ACCIDENTAL RELEASE MEASURES**

**Personal precautions**

When working with heated grease, mechanical ventilation may be required. Remove sources of ignition. Avoid contact with skin and eyes. For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces.

**Environmental precautions**

Do not allow to enter drains, sewers or watercourses. Collect and dispose of spillage as indicated in Section 13. Contact local authorities in case of spillage to drain/aquatic environment.

**Methods for cleaning up**

Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible.

Small Spills: Absorb spillage with oil-absorbing material.

Large Spills: Absorb spilled substance with sand or earth.

---

**7. HANDLING AND STORAGE**

**Handling**

Handle and open container with care. Wear appropriate personal protective equipment. Avoid prolonged and repeated contact with grease, particularly used grease. Always remove grease with soap and water or skin cleaning agent, never use organic solvents. Use work methods which minimise production of vapours and mists. Observe good industrial hygiene practices.

**Storage**

Keep away from heat, sparks and open flame. Store in a cool and well-ventilated place. Store away from incompatible materials.

---

**8. EXPOSURE CONTROLS/PERSOAL PROTECTION**

**Occupational exposure limits**

No exposure limits noted for ingredient(s).

**Exposure controls**

Provide adequate ventilation. When working with heated oil, mechanical ventilation may be required. Provide access to washing facilities including soap, skin cleanser and fatty cream.

**Occupational exposure controls**

**Respiratory protection**

In case of inadequate ventilation or risk of inhalation of dust, use suitable respiratory equipment with particle filter (type P2). Seek advice from local supervisor.
Hand protection  Wear protective gloves. Nitrile gloves are recommended. Suitable gloves can be recommended by the glove supplier.

Eye protection  If risk of splashing, wear safety goggles or face shield.

Skin and body protection Wear suitable protective clothing. Frequent change of gloves is advisable.

General  Use personal protective equipment as required. Personal protective equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Environmental exposure controls  Contain spills and prevent releases and observe national regulations on emissions.

Hygiene measures  Handle in accordance with good industrial hygiene and safety practices. Wash hands after handling. Launder contaminated clothing before reuse.
