

Design House[®] Mission Statement

We seek to benefit our customers by sourcing quality products at the best value, while providing leadership in multi-category product development, consolidation, and logistical support.

Dear Design House Customers,

Design House celebrates our 145th anniversary in 2017 and we cannot thank you enough for your support. Our internal teams have been working tirelessly to bring you new products and make it easier than ever to work with Design House. This catalog is just one tool to help support you, along with new marketing materials, digital content, and a world-class team at our home office and warehouse in Mequon, Wisconsin.

We are pleased to introduce our 2017 catalog with more new products than ever before! With expanded offerings across our five main categories - lighting, hardware, plumbing, bath furniture and outdoor living - we can help provide you the Simple Choice for the Whole House[®]. We are also excited to introduce kitchen cabinets, many new LED lights, and three new Whole House[®] Collections: Perth, Eastport, and Karsen. We are committed to keeping this catalog up-to-date online, and you can always find the updated online version at www.todaysdesignhouse.com.

Thank you for your continued support,

Todd Witte, President & CEO

Items C–F are suitable for damp locations

Prescott LED Disk Light

Two lighting options: Retrofit to incandescent recessed housings or in new construction directly to the ceiling junction box.

Use enclosed spring clips and medium screw base adapter to light as a retrofit kit to existing 5" or 6" incandescent recessed lights.

Use the enclosed lighting ring and lighting screws to attach to the ceiling outlet box. After the wiring connections are made, simply twist the fixture to secure the black lighting clips on to the lighting ring.

PRODUCT #	DESCRIPTION	DIAMETER	LIST PRICE
A 578443	Prescott LED disk light in satin nickel	1 3/4" h x 7 3/4" dia	\$39.95
B 578450	Prescott LED disk light in white	1 3/4" h x 7 3/4" dia	36.95

Prescott LED disk lights are suitable for damp locations

Chandelier and pendant lighting information

Chandeliers and pendants are standard with 48" of chain and 60" of cord.
Mini pendants are standard with 2 x 6" rods and 2 x 12" rods for adjustable heights.

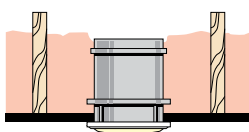

Recessed Lighting Product Knowledge

Certifications

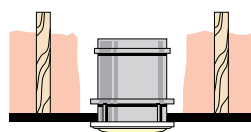

UL or ETL listed to ensure highest quality. All recessed housing and select recessed trims are UL or ETL listed for use in damp locations. Washington State Energy Code compliant. All housings comply with WSEC air sealing requirements to limit heat loss and moisture movement. Recessed construction packaging can be sold as a single unit or as a contractor pack from the same kraft box.

Housings

Housings are adaptable to both IC/non-IC applications. 6" housings available. Adjustable nail-in hanger bars are designed to fit varying width joists.

IC = INSTALLED WITH INSULATION CONTACT

NON-IC = INSTALLED WITH NO INSULATION CONTACT

PRE-INSTALLED NAILS FOR EASY INSTALLATION

ALL HOUSINGS ARE AIRTIGHT AND SUITABLE FOR DAMP LOCATIONS

Dayton LED downlight

Integrated (built-in) LED modules do not need to be changed and last up to 17 years

The clear, seedy glass pattern provides a pleasant glow from the light

Integrated LED modules provide the same light as 40-60 Watt incandescent bulbs

Mount at your front or back door, near garages or other outdoor wall areas

Outdoor Lighting Product Knowledge

Certifications

UL or ETL listed to ensure highest quality. All outdoor wall mount and post lights are UL or ETL listed for use in wet locations. All outdoor pendant and ceiling mount lights are UL listed for use in damp locations.

Dark Sky fixtures minimize glare, reduce light trespass and protect our natural night environment.

- Fully shielded light fixture: all light emitted by the fixture, either directly or indirectly, is projected below the horizontal.
- Fully cut-off light fixture - no light is emitted above the horizontal.

Ceiling Fan Product Knowledge

Certifications

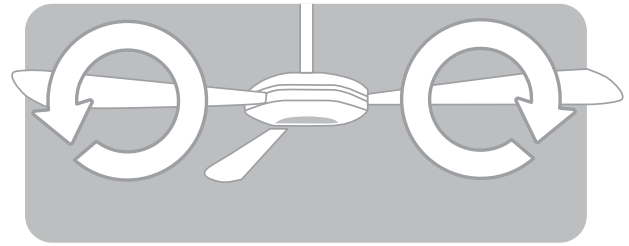

UL listed to ensure highest quality. EPACT, the Environmental Protection Agency Act of 2005 mandates that fans manufactured after January 1, 2009 include a wattage limiting device that limits the light kit wattage to 190 Watts. All Design House ceiling fans are EPACT compliant.

Save energy and money, add comfort

SUMMER : CLOCKWISE

Circulates the air and creates a gentle cooling breeze. With a ceiling fan, 78° can feel 72°. Supplements or even replaces air conditioning.

WINTER : COUNTER - CLOCKWISE

Breaks up the stratification of heat on the ceiling and brings the warmth down to the people. Temperature variation ceiling to floor can be 15°. Room will be warmer at lower thermostat setting.

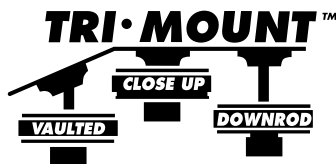

Energy efficiency data

Three energy efficiency data points are provided for all Design House fans. Comparison: 49" to 60" ceiling fans have airflow efficiencies ranging from approximately 51 to 176 CFM/Watt at high speed.

- **Airflow** at high speed measured in cubic feet per minute (CFM)
- **Electricity use** at high speeds (excluding light kit) measured in Watts
- **Airflow efficiency** at high speed measured in CFM/Watt

Mounting

Hugger fans mount directly to the ceiling with no downrod. Tri-mount adaptable feature allows the fan to be mounted with a downrod, in a close-up configuration or on a vaulted ceiling.

Hand Held Shower Kits NEW

Upgrade your showering experience with Design House's new hand shower kits! The five-inch sprayer head has three spray functions – saturating spray, massaging spray, and saturating and massaging mixed spray. The stainless steel, braided hose is over five feet long for ease of cleaning your shower space. Choose from either a slide bar or an easy conversion kit, which allows for a quick upgrade from a basic showerhead to a versatile hand shower.

5" three-function hand shower

Valve & Trim Builder Program

Three Easy Steps

Choose the tub and shower components that best meet your needs.

- Order the builder program valve (524744) during the rough-in stage.
- Order the trim pieces needed when you order the rest of your after-paint decor
 - Shower head
 - Escutcheon
 - Shower handle
 - Tub diverter spout (if needed)
- Mix and match trim pieces to create the design that meets your needs.

Plumbing Product Knowledge

Certifications

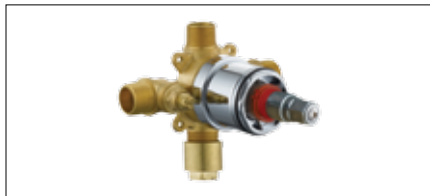

CUPC compliant • **ASME A112.18.1/CSA B125.1 compliant**

Lead-free compliant faucets meet California AB1953, Vermont S-152, and Maryland HB 372 lead-reduction legislation.

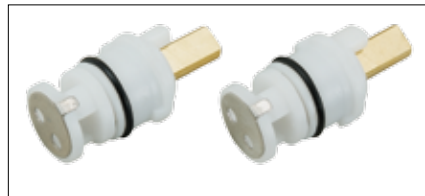

ADA compliant faucets meet Americans with Disabilities Act (ADA) guidelines and ANSI A117.1 requirements. All Design House lever-handle faucets are ADA compliant.

WaterSense labeled faucets use 20% less water without sacrificing quality or performance.

Technology

Pressure-balanced valves on bath and shower faucets maintain a constant temperature even when the water pressure changes. This prevents the occurrence of both sudden scalding and extra cold water temperatures. All valves include anti-scalding device to protect children.

Washerless cartridges used in washerless faucets are plastic discs with holes that align to control the flow of water and eliminate leakage problems that result from worn washers.

Ceramic disc cartridges are wear-resistant ceramic plates with holes that align to let water flow or close to shut off water supply.

Plating finishes are designed and tested to withstand over 96 hours of salt spray and are guaranteed to give you years of trouble-free performance.

Anti-scald ring is adjustable to prevent thermal shock by restricting the faucet's hot water output.

Air-injection technology accelerates the water to create more water pressure with less water, thus improving the spray force using a minimal 2.0 GPM of water.

Quick attach technology makes faucet installation easy by eliminating the need to use tools to attach hoses to the spout. The quick attach technology snaps together with a click so a novice or professional can be assured the connection is secure with an audible, visual, and tactile confirmation. The dual internal o-ring seal prevents the possibility of leaks.

Pull-down kitchen spray heads have toggle control spray options that make it easy to change from aerated stream to spray functionality. The pull-out sprayer swivels 360° on a ball joint to ensure smooth and quiet operation with minimal effort.

Plumbing Product Knowledge

Faucet extension kits are now available to help complete faucet installations when the mounting surface is thicker than the threaded waterways. Installing the extension kit extends the available length of the waterways by an additional inch. The extension kit fits most faucets and is lead-free compliant.

Easy clean shower heads make it easy to clean the mineral deposits that often clog shower heads. Simply wipe the rubber spray nozzles with your finger or a sponge to clean away any hard water deposits and prevent lime scale build-up.

Lead-free compliant faucets have reduced the allowable amount of lead in kitchen and bathroom faucets to a maximum of 0.25%, down from the federal requirement of 4%. To accomplish this, we have used state-of-the-art technology in our engineering and manufacturing process. Compliant faucets will be identified on our packaging with this logo. All of our kitchen and bathroom faucets are compliant.

Finishes

Computerized plating finishes are used in our manufacturing process to provide the highest quality, appearance, and durability.

TruMatch™ finishes ensure matching finishes across all categories from bath accessories and faucets to vanity lights and cabinet hardware.

Locks and Hardware Product Knowledge

Certifications

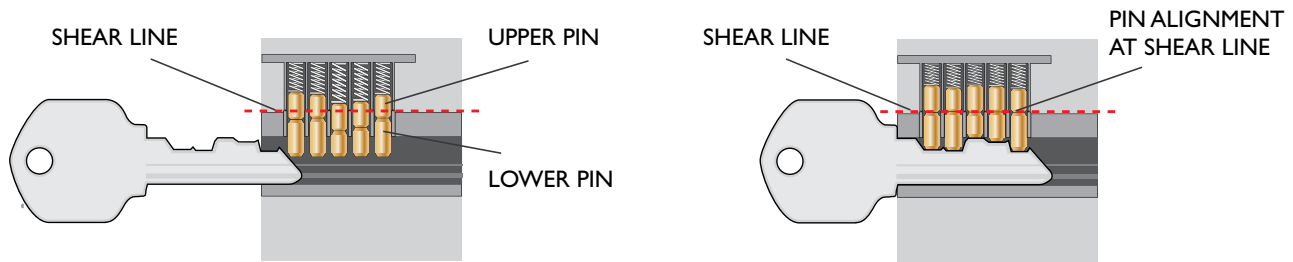

ANSI Grade 3 products are tested to meet grade 3 residential quality standards.

ANSI Grade 2 products are tested to meet grade 2 commercial quality standards.

UL Listed products are rated for use on fire doors.

5-Pin high security

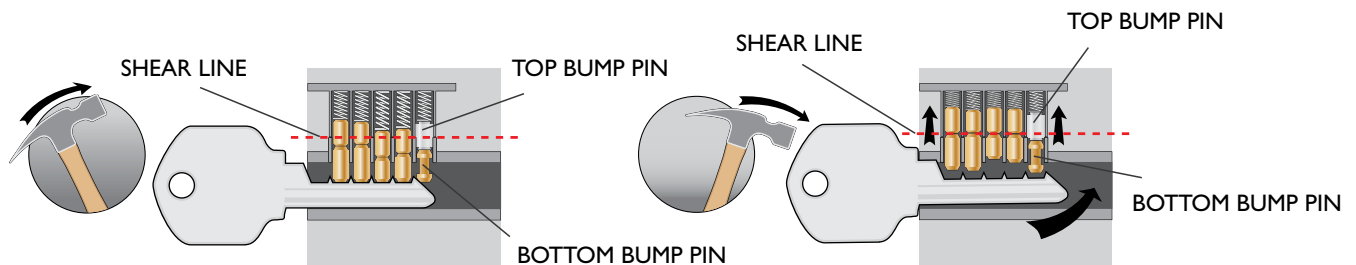

Design House locks are a pin tumbler lock design, which is a system that requires a specific key to move a series of pins to release the lock. When the proper key is inserted, the pins will be pushed upwards, lining up the pairs where the cylinder and the outer housing meet. This point is called the shear line. When the pin pairs meet at the shear line, it allows the keys to rotate the cylinder plug and enables the door knob to become unlocked.

Anti-bump technology

Unlawful entry can be gained by skillfully "bumping" a pin tumbler lock. This action sends a shockwave through the key which then transfers to the pins causing them to rise in the cylinder walls, past the shear line. Once the pins travel past the shear line, a simple twist of the key opens the lock.

Design Houses anti-bump pin technology prevents the pins from moving past the shear line when they are "bumped" by not allowing sufficient force to move the pins, resulting in a securely locked door.

Introducing the Shorewood Vanity Collection

Shorewood Vanities

These ready-to-assemble vanities are constructed of solid wood and feature concealed, soft-close hinges. For added style they feature a furniture-style leg design and square satin nickel finish hardware. Now offered in 33" height across all sizes.

NEW Introducing Camilla Cultured Marble Vanity Tops

Camilla Solid White Cultured Vanity Tops

The Camilla series of vanity tops features a unique square design and a slightly raised edge to contain excess water and prevent dripping. The built-in backsplash prevents mold and water damage. Available in six different sizes, this vanity top matches perfectly with the Shorewood line of vanities.

Shorewood Collection NEW

WHITE

- Ready-to-assemble
- Shaker door design meets today's trends
- Solid wood door frames and drawer fronts
- Soft-close hinges
- Satin nickel hardware with TruMatch® finish

Bath Furniture Product Knowledge

Finishes

Stain gives a natural look and enhances the inherent beauty of the wood.

Paint is applied to obtain a rich, semi-opaque color that can not be achieved with natural wood alone.

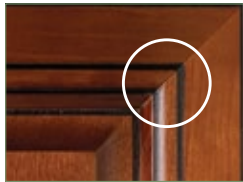

Glaze is added over a base coat of stain. The glaze settles in corners and crevices enhancing the detail of the door design.

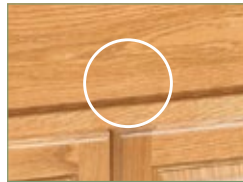

Laminate cabinet drawers have a thin plastic substrate applied to the door creating a smooth, durable finish.

Natural characteristics

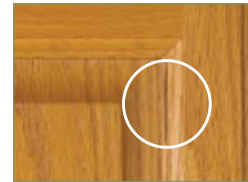

Joint lines are the natural result of wood expanding and contracting based on moisture in the air. They do not weaken or diminish the strength of the joint.

End grain surfaces and other softer areas of the wood accept more stain naturally, creating a darker appearance which adds to the character of the wood.

Telegraphing is the effect of the grain showing through the stain. Open or coarse wood grains, like oak, will "telegraph" more than closed or finer wood grains.

Mineral streaks are a naturally occurring variation in the grain caused by mineral deposits absorbed from the soil. After the finish is applied, the mineral streaks may appear lighter or darker than the rest of the wood.

Features

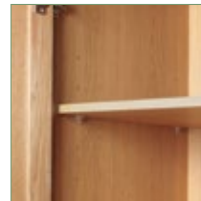

Concealed, adjustable hinges allow for smooth, easy use. Some models may include soft hinges.

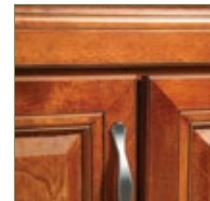

Full extension ball bearing drawer glides.

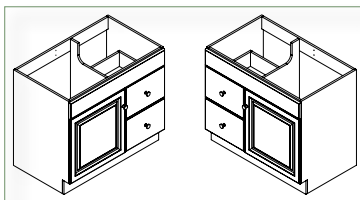

TruMatch cabinet hardware.

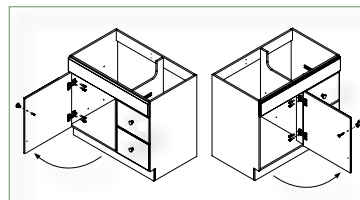

Adjustable shelves.

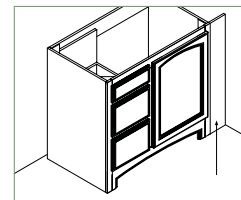

Solid wood door and drawer frames feature either cope and stick or mitered joint construction.

Reversible door and drawers on some Claremont and Wyndham vanities makes them convenient in any space.

Reversible door feature on many Design House vanities allows the homeowner to mount the door for left or right opening.

3" wood fillers available on some models for installing vanities into areas that need an extension to fill in gaps.

Bath Furniture Product Knowledge

CARB

Certifications

CARB the California Air Resources Board, approved an Airborne Toxic Control Measure (ATCM) to reduce formaldehyde emissions from composite wood products sold or used in the State of California. Design House furniture products noted as California 93120 compliant meet these requirements.

UL Listed to ensure the highest quality. All lighted cabinet fixtures are UL listed for damp locations.

ANSI, UPC, & CSA compliant All Design House cultured marble and solid surface vanity tops are ANSI Z124.3-2005/CSA B45 series compliant, which includes testing for impact resistance, stain resistance, chemical resistance and thermal shock, among others. Our granite top undermount bowls comply with ASME A112.19-2008/CSA B45.1-2008. All products are tested in IAPMO R&T labs.

Green advantage

Retailers and builders in the state of California are required to use only California 93120 compliant wood products in order to comply with state laws. California 93120 compliant products are meant to reduce exposure to formaldehyde, reduce the risk of formaldehyde-related cancer and improve air quality by removing formaldehyde emissions.

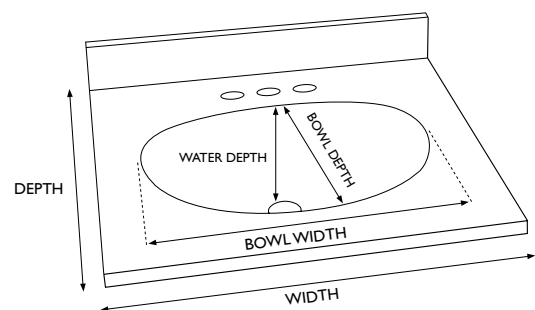

Vanity Tops Product Knowledge

Granite

- Fits Design House fully assembled and ready-to-assemble vanities
- Pre-sealed for stain resistance
- 2 cm thick granite polished on three sides with eased edge profile
- Pre-drilled for single-hole, 4" centerset or 8" widespread faucets
- Pre-installed ceramic UPC certified undermount sink

Kitchen Cabinet Product Knowledge

Natural characteristics

Joint lines are the natural result of wood expanding and contracting based on moisture in the air. They do not weaken or diminish the strength of the joint.

End grain surfaces and other softer areas of the wood accept more stain naturally, creating a darker appearance which adds to the character of the wood.

Telegraphing is the effect of the grain showing through the stain. Open or coarse wood grains, like oak, will "telegraph" more than closed or finer wood grains.

Mineral streaks are a naturally occurring variation in the grain caused by mineral deposits absorbed from the soil. After the finish is applied, the mineral streaks may appear lighter or darker than the rest of the wood.

Features

- Features 105° concealed 6 way adjustable soft close hinges which allow for smooth easy use.
- RTA cabinets offer high quality, durability, and materials with reduced overall cost.
- Adjustable shelves, easy glide drawer glides, optional slow close glides available.
- Unique clip system, allows easy assembly in minutes, tightly secures cabinet components into one highly durable unit.
- Reversed raised panel door construction generally found on high-end cabinets.
- High-end 3/4" solid face frame construction, 1/2" plywood sides, 5/8" plywood shelves, 3/8" solid wood dovetail drawer boxes.

Certifications

CARB the California Air Resources Board, approved an Airborne Toxic Control Measure (ATCM) to reduce formaldehyde emissions from composite wood products sold or used in the State of California. Design House furniture products noted as California 93120 compliant meet these requirements.

Green advantage

Retailers and builders in the state of California are required to use only California 93120 compliant wood products in order to comply with state laws. California 93120 compliant products are meant to reduce exposure to formaldehyde, reduce the risk of formaldehyde-related cancer and improve air quality by removing formaldehyde emissions.

Welcome

Displays and Merchandising Special Order Products Outdoor Living Terms and Conditions

Displays and Merchandising

Showcase your Design House® merchandise with a display worthy of the product. Products are presented in a way that highlights their functionality – making for a customer-friendly, memorable experience.

Three-Sided Freestanding Display

The versatile three-sided display is capable of showcasing up to three different Whole House® collections, one on each of its sides. Alternatively, one of the sides can be utilized to display three pieces of signage and hold a literature shelf. This free-standing display stands at 84.1" in height and includes a red base that is 32.1" in length.

Special Order Center

Increase your sales without increasing your inventory. The Design House Special Order Center displays a full-line Design House catalog, making it easy for customers to order non-stocked products.

Whole House® Counter Showcase

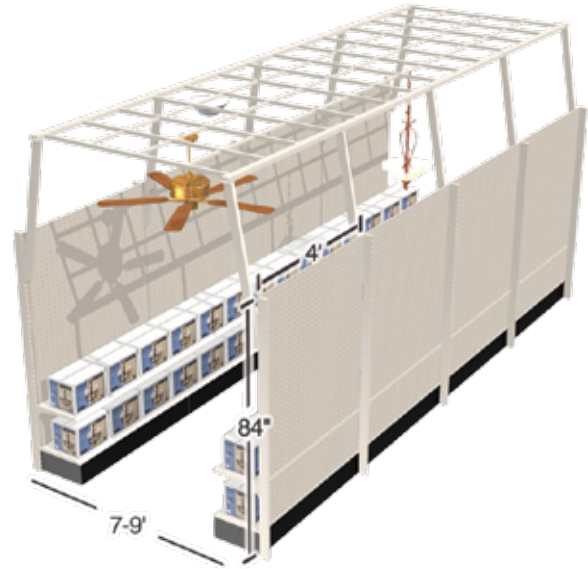

This space-saving display allows you to tell the Whole House® story featuring multiple products from one Whole House collection. No stock purchases required.

Displays and Merchandising

Whole House® Merchandiser

The Whole House merchandiser is a great way to show multiple product categories and features two home packages per 4' section. Requires 4' on both sides of the aisle plus the overhead space.

Overhead Gondola Display system

An easy way to install lighting and ceiling fan merchandise. Designed to connect with existing store gondolas by a series of interlocking brackets. Create an aisle display of 4', 8', 12', and 16'.

60" x 48" Lighting Cloud

A standard lighting cloud that attaches to the ceiling and displays overhead lights and ceiling fans. 12" x 12" lighting brackets and white tiles are ordered separately.

Displays and Merchandising

Vanity Tops

Display up to four 25" granite, cultured marble, and/or solid surface vanity tops with this free-standing display. The display header shows available materials and finishes. Vanity tops sold separately.

Faucet and Bath Accessories

Our faucet and bath accessory displays showcase the styles and finishes of each product line. Stocked product is merchandised directly below the display for quick identification.

Shower Rods

Display Design House curved and straight shower rods in a 4' section. Attach the display to a gondola and merchandise the shower rods directly below.

Door Locks

The door locks display includes four spinner blocks to showcase complete families of locksets, both front and back. The design allows the mechanics of the locks to operate so customers can feel the quality of Design House locks. Spinner blocks can accommodate grade 2, grade 3, and keypad locks.

Door and Cabinet Hardware

The door and cabinet hardware display cleverly shows the product in front of the cut-away master cartons. This allows for quick and easy identification of the product, simplifying the customer's product search.

Locksets

These counter mounts fit grade 2, grade 3, and keypad locks and help you show off the quality of the Design House lockset program. Available in one, three, and five hole mounts and handleset mounts.

Displays and Merchandising

Indoor and Outdoor Lighting

Our indoor and outdoor lighting displays offer a beautiful way to showcase a mixture of light fixtures. Available in 4' sections, the product is truly the focal point of these displays.

Recessed Lighting

The recessed lighting display compliments other Design House displays and provides helpful product information designed to assist customers with their product choice.

At Design House, we improve your merchandising options. We create customized planograms catered to the product you purchase to make assembling your displays as simple as possible. Contact your sales representative today to discuss merchandising opportunities.

Displays and Merchandising Refresh – Coming in 2017

Our displays and merchandising signage are in the process of being refreshed to reflect a new, sleek, unified identity. Visit todaysdesignhouse.com/displays for our most up-to-date offerings.

Special Order Products

One of Design House’s core competencies is the ability to source special order products directly from factories. Usually shipping in 20 or 40-foot containers, these products are excellent opportunities for promotions, projects or for large quantity orders. Here are just a few examples of special order products currently being purchased by Design House customers. Please inquire with your sales manager for additional details on pricing or if you are interested in a product not seen here.

Stainless Steel Kitchen sinks

Our kitchen sinks are offered in various gauges ranging from 18-23 and are constructed of durable stainless steel material. Sinks are available in top mount or under mount with varying hole configurations.

Acrylic Freestanding Bath Tubs

Available in a variety of sizes and styles to accommodate any bathroom design.

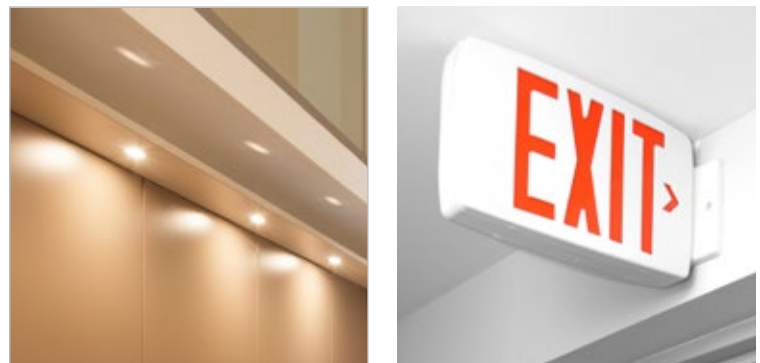

PRODUCT #	LIST PRICE
574392	\$591.72
574327	512.95
574095.....	586.31

Lighting

From track and under cabinet lighting to commercial warehouse lighting we offer solutions to accommodate your project needs.

Special Order Products

LED Mirrors and Cabinets

Add a modern touch with mirrors that provide bright and even LED illumination. Available in standard or custom sizes, these energy efficient lights will brighten up any bathroom.

Vinyl and WPC Flooring

Offered in click system, loose lay, and dry back in a variety of surfaces and color designs. All flooring has a UV coating to protect the product and enable easy cleaning and care.

Locksets - UL-Certified Latches

Our UL lockets have 3-hour UL rating for use on fire doors, are offered in multiple profiles and finishes and come with a Limited lifetime warranty. Great for commercial projects!

Terms and Conditions

TERMS OF SALES & STANDARD POLICIES

- Possession of this catalog does not constitute permission to purchase or an obligation to sell.
- The minimum order requirement is \$50.00. Invoices totaling less than \$50.00 net will be billed at \$50.00 net.
- All products are shipped FOB (Incoterms 2010) shipping point.
- Parcel shipments may be subject to a \$5.00 handling fee.
- Freight charges are included with each order, unless the amount qualifies for prepaid shipping terms.
- Our acceptance of orders is made conditional upon your acceptance of these Terms.

PRICES

- All prices noted within this catalog are suggested list prices.
- All prices are noted in U.S. dollars (USD)
- Design House prices at the time of order supersede prices noted within this catalog. Written quotations with specific product pricing and with buyer orders placed within quote terms may maintain specific pricing.
- Purchases made in less than box quantities may be subject to a 10% upcharge

PAYMENT TERMS

- Standard payment terms are Net 30.
- Payments via ACH are preferred; please contact acct@todaysdesignhouse.com for set up details.
- Send Payments to:
Attn: Accounts Receivable
5205 W. Donges Bay Rd.
Mequon, WI 53092
- Past due accounts may be charged an interest rate of 1.5% per month (18% per annum), not to exceed the maximum interest rate allowed by law. Buyer agrees to pay any collection costs incurred by Design House or its Agents in collection overdue balances.
- Design House may exercise lien rights on projects where payment has not been made in full.

TAXES

- Buyer agrees to pay all current or future federal, state, or local taxes related to any Purchase Order provided to Design House.

ACCOUNT INFORMATION

- Please provide your Account Number when ordering.
- For New Accounts:
 - A minimum order of \$1,000 is required
 - Account is subject to credit approval by Design House's Accounting Department
 - A valid resale tax # is required

ORDERING

- Orders may be placed with the following methods
- EDI Transfer – Please contact your Sales Representative or Customer Service for details
- Email: cs@todaysdesignhouse.com
Phone: 800.558.8700
Hours are: 7:30AM-5:00PM, Monday through Friday, Central Time
Fax: 262.236.4527

SHIPPING

- Specified shipping dates are approximate and Design House shall not be bound to dates, but will strive to satisfy the specified dates. Delays, both in manufacturing and those outside the control of Design House (e.g. Acts of God or delays in transportation) may affect shipments.
- Please notify Customer Service within five (5) days of receipt of order of any shortages or variances in quantity. Design House shall not be responsible if shortages are not reported within this period.
- Unless otherwise agreed to in writing, shipments and route choice will be selected by Design House.

Terms and Conditions

DESIGN HOUSE® NON-DEFECTIVE RETURN POLICY

- Customers may return non-defective products to Design House for credit. The following criteria must be met for all non-defective returns:
- Products must be returned to Design House's Mequon, WI Distribution Center located at:
Attn: Returns
5205 W. Donges Bay Rd.
Mequon, WI 53092
- Returns are allowed within 180 days of purchase
- Non-defective returns are allowed up to 1% of previous calendar year of customers' net purchases
- Products must be in new, resalable condition
- A restocking fee of up to 25% may apply
- Box-pack items must be returned in full box-pack quantities
- Discontinued products are not eligible for return
- Customer pays return freight
- Credits paid based on original purchase price
- Custom or special order products are not eligible for return
- Returns may take up to 15 days to be credited
- Returns require a Return Merchandise Authorization Number (RMA #) before being returned. Please contact your Customer Service Representative at 800.558.8700 or cs@todaysdesignhouse.com to receive a RMA #.

DAMAGED OR DEFECTIVE PRODUCTS

- Missing or damaged parts – Please contact Customer Service at 800.558.8700 or cs@todaysdesignhouse.com to have a replacement part sent.
- Defective goods – In cases involving defective product, materials and/or workmanship covered under standard warranty terms, please contact Customer Service at 800.558.8700 or cs@todaysdesignhouse.com, as returns require a Return Merchandise Authorization Number (RMA #) before being returned.
- Products must be returned to Design House's Mequon, WI Distribution Center located at:
Attn: Warranty Claims
5205 W. Donges Bay Rd.
Mequon, WI 53092
- Design House is not responsible for any damages post-shipment and Buyer agrees to indemnify and hold harmless Design House against any claims related to such damages.

DESIGN CHANGES

- Design House reserves the right to make changes without notice to its products or packaging. Please note that all specifications are approximate and dimensions are nominal.

BUYER'S REMEDIES

- The Buyer's exclusive and sole remedy for any breach of contract or warranty shall be limited to the replacement or repair of products as noted in with these Terms.

CO-OP ADVERTISING POLICY

- Please contact your Sales Representative for information on Design House's Co-Op Advertising Policy.
