Appropriate engineering controls: Good general ventilation should be sufficient to control airborne levels. Respiratory protection is not required if good ventilation is maintained.

Individual protection measures (PPE):
- **Eye protection**: Chemical splash goggles or face shield
- **Hand protection**: Chemical-resistant gloves. Nitrile, neoprene, or other suitable material.
- **Skin and body protection**: If major exposure is possible, wear suitable protective clothing and footwear.
- **Respiratory Protection**: In case of insufficient ventilation, wear suitable respiratory equipment. A respiratory protection program that meets OSHA’s 29 CFR 1910.134 and ANSI Z88.2 requirements must be implemented whenever workplace conditions warrant use of a respirator.
