

Providing Better Beverage Solutions

one cup at a time

Experience better.™

PerfectTouch® insulated paper cups

It just keeps getting better...

Proving itself time and time again, Dixie® PerfectTouch insulated paper cups have been a trusted beverage favorite for over 10 years. Helping reduce the need for double-cupping and expensive beverage sleeves, PerfectTouch can help you reach your sustainability goals.

Coffee Haze
Cup Design

- Reduces waste
 - Helps reduce the need for sleeves or double cupping
- Free of polystyrene foam
- PerfectTouch meets the Sustainable Forestry Initiative (SFI®) Certified Sourcing and chain of custody standards, promoting responsible forestry practices.
- PerfectTouch cups are recyclable if you have access to a recycler that accepts paper or plastic products containing food residue. Such facilities may not exist in your area.
- PerfectTouch cups can be composted in commercial composting facilities with final screening capabilities*

* Such facilities may not exist in your area. Product contains approximately 80% compostable cellulose fiber by weight.

Dixie® single-wall paper hot cups & EcoSmart® PLA-lined paper hot cups

Designed for everyday hot beverage use...

Designed to heat up your beverage sales while still providing sustainable options, the Dixie paper hot cup is the foundation of our cup portfolio. Our paper hot cup provides an upscale image at an economical cost for specialty hot beverages.

Dixie EcoSmart PLA cups are just another way Georgia-Pacific demonstrates the company's commitment to innovative products that support sustainability goals.

- Dixie single-wall hot cups contain approximately 90% compostable cellulose fiber by weight.*
- The PLA-lined paper hot cups contain 98% renewable material such as cellulose fibers from trees and polylactic acid and starch from corn. They are 100% compostable.**
- Can also be recycled by a recycling facility that accepts paper products containing food residue. Such facilities may or may not be available in your area.
- Meets the Sustainable Forestry Initiative® (SFI®) Certified Sourcing and Chain-of-Custody standards, promoting responsible forestry practices.

* The cups can be processed in commercial composting facilities that have final screening capability. These facilities may or may not be available in your area.

** The cups can be processed in commercial composting facilities which may or may not be available in your area.

Dixie® paper cold cups

Designed for everyday cold beverage use...

Dixie paper cold cups provide a cold beverage service for in-house dining and take-out while still providing sustainable options.

- Ideal for take-out
- Two-sided poly-coated to protect against soak-thru
- Stock design consistent with other Dixie Foodservice products — plates, cartons and trays
- Custom print option available to brand your business
- Contain approximately 80% compostable cellulose fiber by weight.*
- Can be recycled by a recycling facility that accepts paper products containing food residue. Such facilities may or may not be available in your area.
- Meets the Sustainable Forestry Initiative® (SFI®) Certified Sourcing and Chain-of-Custody standards, promoting responsible forestry practices

* The cups can be processed in commercial composting facilities that have final screening capability. These facilities may or may not be available in your area.
