### Atomizing Spray Nozzle

Relocated spray nozzle atomizes solution into a fine mist directly in the path of the brushes and recovery drum, minimizing the amount of water used during the hard or soft floor cleaning process.

### Removable Solution Tank

Accessible and easily removable solution tank with larger opening for fast filling, emptying and cleaning.

### Cylindrical Brushes

Counter-rotating cylindrical brushes scrub and lift dirt and water onto a rotating recovery drum to pick up solution, leaving floors clean and dry.

### Wider Handle

Wider, more comfortable handle with one simple push button to dispense cleaning solution.

### Transport Mode

Improved transport mode for ease of movement when not in use.

### Side Brush

Optional side brush for edge cleaning and additional brushes available for carpet and soft or hard scrubbing.
