Product Overview

The Maintenance Warehouse 4in. Color temperature select LED downlight is an easy way to upgrade existing can lights to the sleek look of recessed lighting and LED energy efficient technology. These LED downlights are compatible with most dimmer switches and are equipped with a unique color temperature (CCT) changing technology. Now you can select your color temperature depending on your needs or preferences with the flip of a switch located on the back of the downlight. Test different color temperatures before installation and never be dissatisfied with CCT again. Color temperature of these LED downlights ranges from Warm White (2700K) to Daylight (5000K), with three options in between: Soft White (3000K), Neutral White (3500K) and Bright White (4000K).

Benefits	Construction	Wattage	Installation	Lumens
•Using only 9-Watts of energy but produce brightness comparable to a 65-watt incandescent bulb, these LED	Metal	9W	Friction Clips	650
•Compatible with 4in. cans				72.2 lumens per Watt
•Integrated switch to select color temperature
