Renown® is your source for environmentally preferable quality paper products and dispensing systems.

Renown® Green Seal-certified towel and tissue products are made from 100% recycled wastepaper and are certified by Green Seal, Inc. in Washington, DC. The Green Seal® means our products meet the Green Seal environmental standards for paper towels and tissue (GS-1), making the Renown® Green Seal-certified products among the most environmentally preferable towel and tissue lines available in the away-from home market.

GREEN MOMENTUM

Over the years, changing world dynamics have propelled the green movement with environmental concerns such as global warming, pollution and landfill waste gaining exposure. Over the last twenty years, the federal government has issued various Executive Orders pertaining to greening its facilities and thereby encouraging the private sector to develop products and technologies to further the green movement. Now, consumers have sought ways to minimize their impact on the environment by choosing products that are made from recovered materials or manufactured and transported with methods less harmful to our environment. In essence, consumers are seeking green products.

Unfortunately, not all of the products associated with being green are truly environmentally preferable. Buyers and consumers have to be aware of “greenwashing” which, simply defined, is misleading claims about the environmental benefits of a product. You don’t have to worry with Renown® towels and tissue. Most Renown® products are certified by Green Seal, Inc. or contain 100% recycled materials. Renown® products bearing the Green Seal® have been manufactured to strict environmental standards taking the guesswork out of the green evaluation process for the purchaser or decision maker.

GS-1 Green Seal™ Standard for Sanitary Paper Products (Paper Towels and Tissue)

- 100% Recycled (recovered after papermaking process) – may also contain a mix of agricultural plant residue
- Minimum 50% post-consumer wastepaper content for paper towels (exceeds EPA minimum guidelines)
- Minimum 25% post-consumer wastepaper content in bath tissue and toilet seat covers; 15% facial tissue (exceeds EPA minimum guidelines)
- Product performance is consistently measured under controlled and reproducible laboratory conditions and products meet the requirements in the standard with respect to basis weight, tensile strength, stretch, and absorbency
- Hardwound 1-ply roll towel contains a minimum of 133 square feet of product per roll; 58 square feet per roll minimum for 2-ply kitchen roll towels
- Folded 1-ply paper towel contains a minimum of 84 square feet per package
- 2-ply bath tissue contains a minimum of 41 square feet of product per roll and facial tissue contains a minimum of 37 square feet per package
- The papermaking process, including deinking and/or bleaching, for producing paper towels and tissue is processed chlorine free (PCF) and does not contain any additives or contaminants that are carcinogens, mutagens or reproductive toxins
- The papermaking process meets the established limits for water disinfection and optical brighteners
- Papermaking additives are readily biodegradable, except for those noted in the standard
- Paper towels or bath tissue do not contain any added chlorophenolic biocides, fragrances, heavy metals, or ozone-depleting compounds
- Products are manufactured by companies that adhere to social responsibility guidelines and provide fair conditions of employment
- Products are manufactured within established annual water and energy use criteria
- The cores in the roll towels and bath tissue and the facial tissue boxes are made from 100% recycled materials
- Outer corrugated cardboard packaging is recyclable and made from at least 30% recovered material
- Packaging made from plastic is recyclable, or source-reduced by 20% or contains 25% recovered material content
- Packaging does not contain heavy metals, including lead, mercury, cadmium, and hexavalent chromium nor phthalates, bisphenol A, and chlorinated packaging material (for plastic packaging) that have intentionally been introduced
- Printing colorants on packaging do not contain lead, mercury, cadmium, and hexavalent chromium in excess of 100 parts per million (above trace levels)

Buying Renown® helps save annually¹:

244,069 trees

100,499,043 gallons of fresh water

58,863,725 kilowatts of energy

45,942 cubic yards of landfill space

861,420 pounds of air pollutants

¹Savings calculated based on Renown® purchases of 100% recycled paper products over a consecutive 12-month period using an average case weight of 22.90 lbs. as compared to products containing no recycled content. Sources include Green Seal's Choose Green Report for Bath Tissue and Paper Towels; Conservatree; and Eco-Cycle.

Paper Products

Renown® Select Green Seal-certified towels and tissue offer the highest quality in 100% recycled products. Made from a superior grade of recycled wastepaper for exceptional brightness, Renown® Select towels and tissue exceed EPA guidelines for post-consumer waste. Featuring consumer-like embossing for absorbency and added softness, Renown® Select is ideal for a variety of green applications.

RENOWN® SELECT FOLDED TOWELS

Renown® Select Green Seal-certified folded towels are made from a superior grade of 100% recycled wastepaper for exceptional brightness. Select folded towels feature a leaf embossing pattern for added softness and absorbency. The Green Seal-certified Select towels exceed EPA guidelines with a minimum of 50% post-consumer waste and are available in multifold and a unique folded size.

REN06143-WB, REN06144-WB

RENOWN® SELECT BATH & FACIAL TISSUE

Renown® Select Green Seal-certified bath tissue features a floral embossing pattern for added softness and absorbency. Made from a superior grade of 100% recycled wastepaper, Select bath tissue exceeds EPA guidelines with a minimum of 40% post-consumer waste content.

Renown® Select facial tissue offers the softness and absorbency of household tissue with attractive packaging and meets EPA guidelines with 15% post-consumer waste.

REN06148-WB, REN06151-WB (881514)

RENOWN® GREEN SEAL-CERTIFIED TOWELS

Renown® Green Seal-certified roll, centerpull and folded towels are 100% recycled and made entirely from recovered fibers. White, natural and natural white towels contain a minimum of 50% post-consumer waste. Folded towels are available in multifold and C-fold configurations.

REN06004-WB (881515), REN06118-WB (881516), REN06115-WB (108216), REN06003-WB (881520), REN06114-WB (881518), REN06116-WB (881519)

RENOWN® GREEN SEAL-CERTIFIED BATH TISSUE

Embossed for softness, 100% recycled Renown® Green Seal-certified bath tissue contains a minimum of 40% post-consumer waste, which exceeds EPA guidelines.
