Uniquely designed to create a premium hand-drying experience while minimizing waste and consumption.

The unique thru-air-dried manufacturing process of Renown Premium White Multifold Towels create a bulky and highly absorbent towel that outperforms most conventional towels in the market. The strong and absorbent TAD (thru air-dried) multifold towels are perfect for customers that want premium level performance for general wiping and cleaning across their entire facility. Designed to minimize waste and enhance hygiene, these towels are compatible with most dispensers for universal fit.
