

Gen-Eye POD™

Pipe Inspection/Location System

Just grab it and go.

The lightweight, **Gen-Eye POD™** and **MINI-POD™** combine camera, reel, and monitor in an all-in-one package.

You get a large 7" LCD color monitor protected by a padded case. It's mounted on a rugged yet flexible gooseneck that swivels to give you the best viewing angle, wherever you're working.

The full size Gen-Eye POD™ features a self-leveling camera and 200 ft. of Gel-Rod® for troubleshooting 3" to 10" drain lines. The big capacity MINI-POD™ carries 125 ft. or 175 ft. of push-rod and color mini-camera for inspecting 2" to 4" drain lines. The tough steel frame can be operated vertically or horizontally, so you can handle nearly any application.

There's lots more, like a picture inverter, both AC and DC power cords, LED Dimmer Control, 3" Trap Skid, and a 512 Hz transmitter. A video out connection lets you record on an external device.

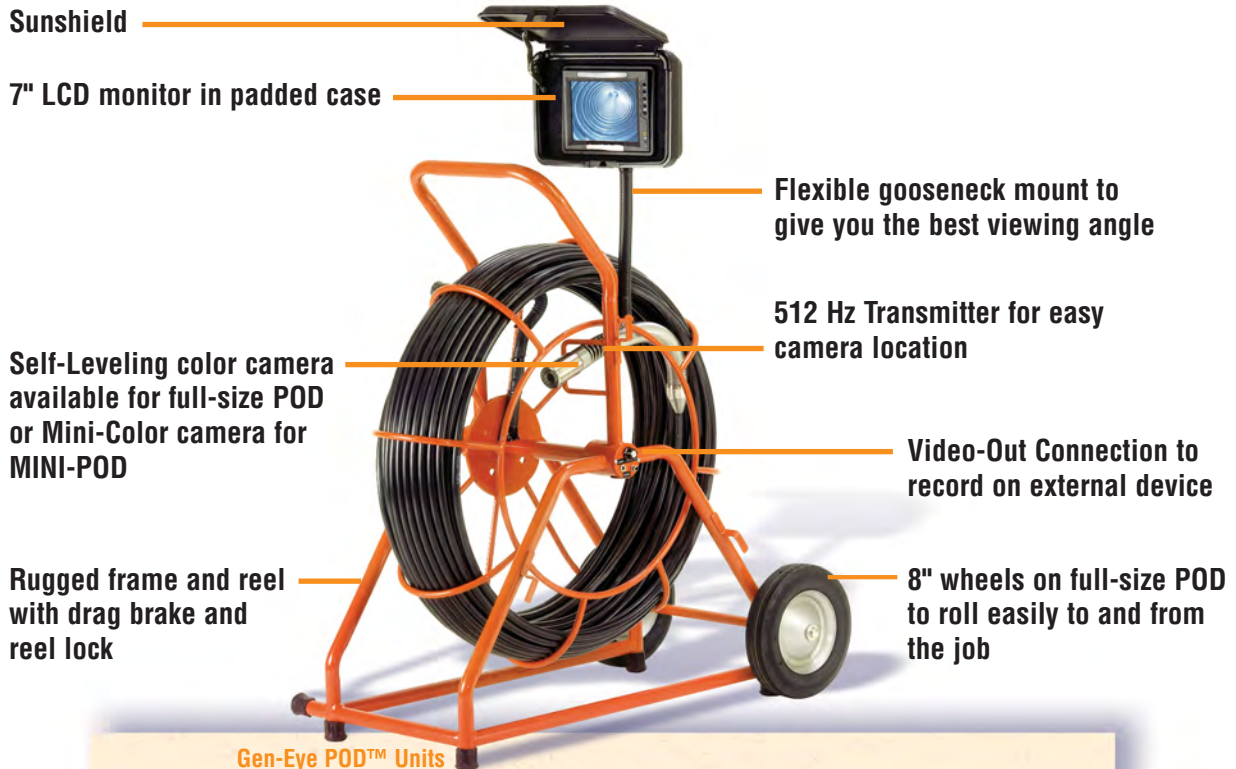

Skid designs

Skids keep the camera centered in the pipe for a better view, while reducing drag on longer runs. Standard systems include both 3" and 6" trap skids that protect the camera from abrasion as it slides through cast iron traps. Optional 3-in-1 skid set for 4", 6" and 8" lines, and Universal Roller Skid for 6" to 12" lines are also available.

Can be operated vertically or horizontally

Full size POD carries 200 ft. of Gel-Rod® for 3" to 10" lines

Gen-Eye POD™ Units

SL-GP-E	POD with Self-Leveling Color Camera, 200 ft. Gel-Rod, and Sonde.
SL-GP-F	Same as SL-GP-E, plus Digital Locator with Padded Bag.
C-GP-E	POD with Color Camera, 200 ft. Gel-Rod, and Sonde.
C-GP-F	Same as C-GP-E, plus Digital Locator with Padded Bag.

MINI-POD carries 125 ft. or 175 ft. of Push-Rod for 2" to 4" lines.

Gen-Eye MINI-POD™ Units

C-GP-A	MINI-POD with 125 ft. Push-Rod and Sonde.
C-CP-B	Same as C-GP-A, plus Digital Locator with Padded Bag.
C-GP-C	MINI-POD with 175 ft. Push-Rod and Sonde.
C-GP-D	Same as C-GP-C, plus Digital Locator with Padded Bag.
