

## Ingredients of Basic Elements Shampoo

Formula No: SH1-1678

Item	INCI Name
1	Aqua (Water)
2	Sodium Laureth Sulfate
3	Cocamidopropyl Betaine
4	Sodium Chloride
5	Cocamide DEA
6	Parfum (Fragrance)
7	Citric Acid
8	Chondrus Crispus (Carrageenan)
9	Methylparaben
10	Propylparaben
11	Methylchloroisothiazolinone
11	Methylisothiazolinone
12	CI 42090

**Remark:** This ingredient list is issued by Ming Fai R&D department and is a property of Ming Fai.

**Date:**2012/4/23

# Material Safety Data Sheet

## 1. IDENTIFICATION OF THE SUBSTANCE AND PRODUCER

Product Name: "Basic Elements" Shampoo.

Formula No: SH1-1678

Address: Bainikeng, Pinghu, Longgang, Shenzhen, PRC.

Emergency telephone number: 86-755-28802888

Emergency Fax number: 86-755-84662992

## 2. COMPOSITION/INFORMATION ON THE COMPONENTS

A compound of water, anionic surfactant, amphoteric surfactant, nonionic surfactant, fragrance, skin conditioning agent, viscosity increasing agent, chelating agent, pH adjuster, preservative and colorant.

## 3. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Transparent Viscous Liquid

Colour: Blue.

Odour: Characteristic odor

pH, 25°C: 5.5~6.5

Viscosity, 25°C: 4000~7000mPa.s LVT#4@30r.p.m.

Flammability: Non Flammable

Boiling Point (°C): N/A

Melting Point(°C): N/A

Solubility in Water at 20°C: Soluble

## 4. HAZARD IDENTIFICATION

This shampoo is not hazardous or toxic under normal conditions of use.

## 5. FIRST AID

(1) Contact with skin: In case of irritation, seek medical advice.

(2) Contact with eyes: Rinse with water. Seek medical advise.

(3) Ingestion: Seek medical advice.

(4) Inhalation: Seek medical advice.

## 6. FIRE FIGHTING MEASURE

### Extinguishing Media

Not combustible.

### Special Hazards of Product

May make floor very slippery. Fumes containing carbon dioxide, carbon monoxide and sulphur dioxide may be formed in large fires.

### Protective Equipment for Fire Fighting

Wear self contained breathing apparatus.

## 7. ACCIDENTAL RELEASE MEASURES

### Extinguishing Media

Not combustible.

### Unsuitable Extinguishing Media

Avoid using large quantities of water.

### Special Hazards of Product

May make floor very slippery. Fumes containing carbon dioxide, carbon monoxide and sulphur

dioxide may be formed in large fires.

### **Protective Equipment for Fire Fighting**

Wear self contained breathing apparatus.

## **8. HANDLING AND STORAGE**

Store in tightly closed plastic, plastic lined or stainless steel containers at between 10-30°C.

Keep away from heat.

Do not store close to strong oxidising agents.

## **9. EXPOSURE CONTROLS/ PERSONAL PROTECTION**

Store in tightly closed plastic, plastic lined or stainless steel containers at temperature between 10-30°C. Keep away from sources of ignition or naked flames. Do not store close to strong oxidising agents which could aggravate any fire situation. When handling raw bulk wear safety glasses, PVC gauntlets and protective overalls.

## **10. STABILITY AND REACTIVITY**

### **Stability**

Stable under normal conditions

### **Conditions to avoid**

Strong oxidising agents.

Sources of heat.

### **Hazardous Decomposition Products**

Fumes containing carbon dioxides and carbon monoxide may be formed in large fires.

## **11. ECOLOGICAL INFORMATION**

This product is not considered environmentally harmful in its expected usage and drainage to sewers and treatment plants.

## **12. TOXICOLOGICAL INFORMATION**

Product is not expected to cause irritation under normal conditions of use.

Slight stinging can occur if neat product gets into eyes. Irrigate eyes with cold water.

## **13. DISPOSAL**

Do not mix waste with other materials.

Do not dispose of bulk quantities directly into drains.

Avoid inhalation or contact with eyes.

When disposing of bulk use PPE- see section 9.

## **14. TRANSPORT INFORMATION**

Not classified as hazardous for transport.

## **15. REGULATORY INFORMATION**

Product not classified as dangerous for supply.

## **16. OTHER INFORMATION**

The information contained in this document is intending to describe this product only in terms of health, safety and environmental requirements for the purpose of its safe handling, use and disposal. This information is on Ming Fai's current level of knowledge and relates to the product in the state it is delivered.

## Ingredients of Basic Elements Body Lotion

Formula No: LT1-1920

Item	INCI Name
1	Aqua (Water)
2	Mineral oil
3	Glycerin
4	Stearic Acid
5	Cetearyl Alcohol
6	Glyceryl Stearate
6	PEG-100 Stearate
7	Glyceryl Stearate
8	Polysorbate 60
9	Dimethicone
10	Parfum (Fragrance)
11	Carbomer
12	Chondrus Crispus (Carrageenan)
13	Triethanolamine
14	Tetrasodium EDTA
15	Methylparaben
16	Propylparaben
17	BHT

**Remark:** This ingredient list is issued by Ming Fai R&D department and is a property of Ming Fai.

## Ingredients of Basic Elements Soap

Sample No: ST-2224

Formula NO: SFO546

Item	INCI Name
1	Sodium Palmate
2	Sodium Palm Kernelate
3	Aqua (Water)
4	Glycerin
5	Palmitic Acid
6	Sodium Chloride
7	Parfum (Fragrance)
8	Tetrasodium EDTA
9	Tetrasodium Etidronate

**Remark:** This ingredient list is issued by Ming Fai R&D department and is a property of Ming Fai.

Date: 2012/4/24

# Material Safety Data Sheet

## 1. IDENTIFICATION OF THE SUBSTANCE AND PRODUCER

Product Name: "Basic Elements" Soap  
Formula No: SFO546.  
Packing: On request  
Factory Address: Bainikeng, Pinghu, Longgang, Shenzhen, PRC.  
Emergency telephone number: 86-755-28802888.  
Emergency Fax number: 86-755-84662992.

## 2. COMPOSITION/INFORMATION ON THE COMPONENTS

A compound of sodium palmate, sodium palm kernelate, water, humectant, fragrance, sodium chloride and chelating agent.

## 3. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Opaque solid.  
Colour: White.  
Odour: Characteristic odor  
Flammability: Non Flammable  
Boiling Point (°C): N/A  
Melting Point(°C): N/A

## 4. HAZARD IDENTIFICATION

This soap is not hazardous or toxic under normal conditions of use.

## 5. FIRST AID

- i) Contact with skin: In case of irritation, seek medical advice.
- ii) Contact with eyes: Rinse immediately with plenty of water and seek medical advice.
- iii) Ingestion: Seek medical advice immediately in order to decide to induce vomiting or to have stomach of the subject pumped out.
- iv) Inhalation: In case of inhalation, remove from exposure. Keep warm and at rest.

## 6. FIRE FIGHTING MEASURE

### **Extinguishing Media**

Not combustible. Select extinguishing agent appropriate to other materials involved.

### **Unsuitable Extinguishing Media**

Avoid using large quantities of water.

### **Special Hazards of Product**

May make floor very slippery. Fumes containing carbon dioxide, carbon monoxide and sulphur dioxide may be formed in large fires.

### **Protective Equipment for Fire Fighting**

Wear self contained breathing apparatus.

## 7. ACCIDENTAL RELEASE MEASURES

### **Extinguishing Media**

Not combustible. Select extinguishing agent appropriate to other materials involved.

### **Unsuitable Extinguishing Media**

Avoid using large quantities of water.

### **Special Hazards of Product**

May make floor very slippery. Fumes containing carbon dioxide, carbon monoxide and sulphur

dioxide may be formed in large fires.

### **Protective Equipment for Fire Fighting**

Wear self contained breathing apparatus.

## **8. HANDLING AND STORAGE**

Store in tightly closed plastic, plastic lined or stainless steel containers at between 10-30°C.

Keep away from sources of ignition or naked flames.

Do not store close to strong oxidising agents which could keep out of the reach of children.

## **9. EXPOSURE CONTROLS/ PERSONAL PROTECTION**

Store in tightly closed plastic, plastic lined or stainless steel containers at temperature between

10-30°C. Keep away from sources of ignition or naked flames. Do not store close to strong

oxidising agents which could aggravate any fire situation. When handling raw bulk wear safety glasses, PVC gauntlets and protective overalls. Keep out of the reach of children.

## **10. STABILITY AND REACTIVITY**

### **Stability**

Stable under normal conditions

### **Conditions to avoid**

Strong oxidising agents.

### **Sources of ignition.**

Avoid raising or lowering the pH.

### **Hazardous Decomposition Products**

Fumes containing carbon dioxides and carbon monoxide may be formed in large fires.

## **11. ECOLOGICAL INFORMATION**

This product is not considered environmentally harmful in its expected usage and drainage to sewers and treatment plants.

## **12. TOXICOLOGICAL INFORMATION**

Product has been Dermatologically tested and so is not expected to cause irritation under normal conditions of use.

Slight stinging can occur if neat product gets into eyes. Irrigate eyes with cold water.

## **13. DISPOSAL**

Do not mix waste with other materials.

Do not dispose of bulk quantities directly into drains.

Avoid inhalation or contact with eyes.

When disposing of bulk use PPE- see section 9.

## **14. TRANSPORT INFORMATION**

Not classified as hazardous for transport.

## **15. REGULATORY INFORMATION**

Product not classified as dangerous for supply.

## **16. OTHER INFORMATION**

The information contained in this document is intending to describe this product only in terms of health, safety and environmental requirements for the purpose of its safe handling, use and disposal. This information is on Ming Fai's current level of knowledge and relates to the product in the state it is delivered.
