Cables

Flexicore® Cable

Wire Rope Center Construction

Heavy-gauge wire coiled tightly around 49-strand aircraft-type wire rope and heat treated. Has unequalled strength and the right amount of flexibility. So tough it carries a one-year warranty against defect or breakage.

Flexicore Patent Nos. 2,244,735 and 2,849,870

General Flexicore® Cable with Male and Female Connector

"SP" Connector

SP cables are available in 5/8" and 3/4" diameter.

Sectional Cables

Sections for Model 88, Hot-Rodder and Rodrunner come in the all purpose Flexichain which has a chain center, a stiffer Proflex which has a spring center, and a hollow style. Proflex is also available with a heavier duty 5/8" spring center.

Choose from three coupling styles. They snap together in a second and are taken apart quickly with a spanner wrench or uncoupling key. With the more recently developed "G" connector, no torque is put on the locking pin when running in reverse, making it a durable coupling.
