## Creating a Healthy Workplace

**The Healthy Workplace Project\*** is the first comprehensive, easy-to-use hand hygiene program that goes beyond the restroom to attack germs where they live – on hands, office equipment and other “hotspot” surfaces.

This innovative program educates and encourages employees to “wash, wipe and sanitize”, giving them easy things they can do to help reduce the spread of germs in their workplace.

KLEENEX® Brand and SCOTT® Brand towel, tissue, soap and sanitizer products are designed to help make your facility a healthy environment.

## Taking Environmental Responsibility Seriously

We understand that the way we use resources today will shape the world of tomorrow. That's why we examine each product's entire lifecycle, from sourcing through disposal, to reduce our overall environmental impact by reducing the use of resources at every stage.

### We call this approach Reduce Today, Respect Tomorrow\*

Sustainable forestry, technology, manufacturing efficiency, transportation, packaging – all play a part in our environmental solution. We're committed to designing product and packaging solutions that:

- Contain Forest Stewardship Council® (FSC) certified virgin fiber to deliver quality and performance
- Contain high levels of recycled fiber which meets or exceeds EPA Guidelines for post-consumer content
- Contain third party certification such as EcoLogo® or Green Seal™, assuring high environmental standards
- Use less packaging than similar products
- Help you use less than similar products, resulting in less waste

By choosing our brands, you support our efforts to Reduce Today, Respect Tomorrow\*

# Hard Roll Towel Systems

## One flexible dispenser

SANITOUCH\* Dispensers make it easy to choose manual or electronic operation – or both. The manual version is touchless and reliable with no batteries needed. The electronic system is quieter than enMotion® and has adjustable settings that let you choose sheet length, time delay, sensitivity and dispensing operation mode.

## Want to convert existing manual SANITOUCH\* Dispensers to electronic?

It's as easy as replacing the module inside. Even ordering towels is easy since the same roll fits both the electronic and manual dispenser modules.

✦ These dispensers are available with MICROBAN® technology that provides built-in antimicrobial protection against most common stain and odor-causing bacteria.
