Advantages

2-Speed power and decibel control switch quickly minimizes the impact cleaning professionals have on any environment.

Quiet motor assembly allows for cleaning during the day without disrupting building occupants.

Includes a thermal protector shut-off switch that prevents the motor from overheating due to a full filter or obstruction within the vacuum.

Large filter capacity allows users to clean more with less down time.

HEPA filter works in concert with ProTeam's advanced Four Level Filtration system (including organically treated Intercept Micro Filters) to capture 99.97% of airborne particles .3 micron or larger which meets HEPA filtration levels.

The QuietPro BP and CN have earned the Bronze Seal of Approval/Green Label from the Carpet and Rug Institute (CRI), signifying the vacuum systems meets higher standards for carpet cleaning effectiveness and indoor air quality.

Meets the requirements of the U.S. Green Building Council's LEED rating system for Green Cleaning – Sustainable Cleaning Equipment.

Proven to eliminate stress and body fatigue by utilizing patented two-piece back plate.
