

The EZ Floorkeeper[®] Series of Automatic Scrubbers

Value, performance, and one of the industry's most popular walk-behind scrubbers

Quiet Operation

Each of the units in the EZ Floorkeeper[®] Series of automatic scrubbers is perfect for a wide range of flooring surfaces from tile, linoleum and rubberized floors to marble and concrete. Ruggedly constructed of rotationally-molded plastic, these machines are a fundamental component in a hard-floor maintenance program. In a single pass, an EZ Floorkeeper lays solution, scrubs, and recovers dirty water, leaving a clean, dry floor behind. Tornado[®] EZs are in use worldwide in retail store chains, grocery stores, and discount stores. Thanks to their quiet operation, compact size, and front-mounted warning light, they can be used in retail settings while customers are shopping.

Versatility

Tornado's[®] EZ Floorkeeper's provide easy operation, versatility, innovative features and durable design for use in many different environments including:

- Hospitals and Healthcare Facilities
- Schools and Universities
- Hotels and Resorts
- Industrial Facilities

Rugged Construction

EZ Floorkeepers are available in a 20" brush-assisted model, a 20" traction drive unit, and a 24" traction drive unit. All units feature 200 rpm brush speed, 3-stage vac motor, speed control, and 13-gallon solution and recovery tanks. All models come standard with swing squeegee, pad holder, batteries, and charger.

The EZ Floorkeeper® Series.

Value, performance, and one of the industry's most popular walk-behind scrubbers

Key Features

- Convenient recovery tank drain hose located above the brush deck
- 13 gallon solution tank is easily filled through a side filler door
- See-through lid on the recovery tank allows the operator to monitor recovery tank level
- The 20" EZ-TD and the 24" EZ-TD feature a traction drive system
- Battery well is easily accessible for maintenance and service
- Come standard with pad holder, batteries and charger

20" EZ BRUSH DRIVE

Value

The EZ Series offers some of the industry's most competitive automatic scrubbing packages available today.

Service made simple

The battery compartment is easily accessible for maintenance and service operations by qualified personnel.

EZ Traction Drive: Quiet, powerful, reliable operation

The 20" EZ-TD and the 24" EZ-TD feature a traction drive system for the unit's forward motion. The traction drive is a sealed gear unit, a significant reduction in part number compared to competitive units. The traction drive requires no maintenance, has no lube points, and is extremely quiet.

Common sense features

A see-through lid on the recovery tank allows the operator to monitor recovery tank level for optimal machine performance.

Professional Performance

The EZs leave behind a clean, dry floor. Easy-to-use controls make the unit an operator favorite the world over.
