

ProTeam is Your Team

2011

Innovation has brought us to the forefront of the Jan San industry by combining powerful bar-rising performance with unmatched durability to fit the rigorous demands of cleaning professionals.

The Right Tool for the Right Job

Efficiency:

- Four Level Filtration.
- Removes more than 99% of dust, soil and other pollutants.
- ProTeam backpack vacuums clean 52% faster than a dust mop.

Productivity:

- Backpacks cover up to 10,000 square feet per hour.

Improved IAQ:

- ProTeam vacuums qualify for accreditation under the LEED Green Building Rating System developed by the US Green Building Council.

Ergonomic Design: Fast and Easy to Use

Did you know?

ProTeam Backpacks require less than half the energy and effort to clean the same area as an upright.

- Are safer for the Cleaning Worker.
- Allow more carpet to be cleaned in a shorter amount of time.
- Avoid repetitive motion.
- Results in less body stress due to the use of large muscle groups.
- Minimizes "hunching over" often associated with uprights.

The ProTeam Advantage

Cleaning For Health

- Studies show that the increased air flow and suction of ProTeam vacuums capture 79% more dust particles than other models, which literally makes the air cleaner.
- Dr. Michael Berry PhD showed that using properly filtrated vacuums as part of a regular cleaning regimen helps dramatically reduce the levels of allergy and asthma triggers.
- Schools participating in Dr. Berry's test showed a 46% decrease in overall student absenteeism.

Warranty

ProTeam Backpacks carry an unmatched **3/3/3/Life Warranty**

- 3 Years on Parts
- 3 Years on Motor
- 3 Years on Labor
- Lifetime on Molded Body Parts

Recommended Products

Super CoachVac®

The American Lung Association and ProTeam are partners in a national program to educate the public about the benefits of healthy indoor air quality and ways to promote lung health.

ProTeam vacuums have earned **Seal of Approval/Green Label from the Carpet and Rug Institute (CRI)** signifying the vacuum systems meet higher standards for carpet cleaning effectiveness and indoor air quality. Vacuums must meet three cleaning requirements: soil removal, dust containment and carpet fiber protection.

ProTeam vacuums meet the requirements of the **U.S. Green Building Council's LEED rating system.**
